

Pain related illnesses

disease name	model name	animal species
Inflammatory pain model	Formalin induced inflammatory pain model	mouse, rat
	A complete Freund's adjuvant induced inflammatory pain model	rat
	Induced inflammatory pain model of carrageenan	rat
	Inflammatory pain model induced by kaolin	cat, dog
	Angiotensin II (AngII) induces inflammatory pain in mice	mouse
	Capsaicin induced inflammatory pain	rat
Joint pain model	Sodium iodoacetate (MIA) - induced pain model of osteoarthritis	mouse, rat
	Induction of osteoarthritis pain model by meniscectomy+anterior cruciate ligament transection (DMM+ACLT)	rat
	Meniscus resection (DMM) induced osteoarthritis pain model	rat
	Osteoarthritis pain model induced by anterior cruciate ligament transection (ACLT)	rat
	Meniscus fracture (MMT) induced osteoarthritis pain model	rat
	Uric acid induced ankle pain model	
Incision pain model	Surgical incision pain model	mouse, rat, dog, pig
Neuropathic pain model	Pain model induced by chronic constriction injury (CCI) of sciatic nerve	mouse, rat
	Pain model induced by sciatic nerve injury (SNI)	rat
	The rat model of diabetes induced by streptozotocin (STZ)	rat
	Oxaliplatin induced neuropathic pain model in rats and mice	mouse
	Tumor induced pain model	mouse
